The above mentioned hospital systems will be a resource for this event. They have been notified of this event. They have been notified of this event. There is not one specific person to contact at this hospital as the ER back line desk is manned differently throughout each day. They are available and there for us should a player need urgent attention. Our players will be placed in the system in priority order due to severity of symptoms and injury. Most importantly they will know they are coming. We have been told that our players will be called back as quickly as possible. Charge nurses, nurse practitioners, physician assistants and physicians are different daily but all will be aware of the event and our needs. The previously mentioned hospital will also be used for emergency services.

*The above mentioned urgent care facilities are for urgent cases that do not require emergency service or 911 assistance. They have been notified of this event. They are available and there for us should a player need urgent attention and **do have x-ray onsite**. Our players will be placed in the system in priority order due to severity of symptoms and injury. We have been told that our athletes will be called back as quickly as possible. Practitioners are different daily but all will be aware of our event and needs. They do have pediatric trained physicians available in their facility and are equipped with x-rays, etc that we would need.*
