Use of Personal Recording Devices @ MoneyGram Soccer Park & Toyota Soccer Center

The use of personal recording devices is permitted on the spectator side of the field, directly opposite the team bench and behind all spectators. The recording device may not interfere with any other spectators' view of the match.

Additionally, if any recording device is elevated over 6 feet in height, the device must be properly secured with weights and anchors.

If a competition official requests that the device be lowered, full cooperation is mandatory.

*Thank you,
Southern Regional Tournament Committee*
